

CONNECTING *THE* UNCONNECTED

A TOP-PERFORMING TEAM

JFC is an innovator and world leader in integrating IBM Maximo Asset Management, Internet of Things (IoT) technology, and Enterprise Asset Management (EAM) processes. JFC is market focused and able to tailor solutions by executing on industry-specific business drivers.

Our analytical approach to problem solving helps identify areas of your business to increase transparency and insight into assets and reliability. Our **CONNEX IoT solution** allows you to collect, monitor, and analyze data and conditions.

Established in 2001, JFC has an impressive track record of helping an even more impressive customer listing of leaders in Higher Education, Facilities, Public Infrastructure, Transit, and Transportation.
