

*NEXT GEN INTEGRATION OF YOUR  
MAXIMO TIME KEEPING & PAYROLL DATA**HIGHLIGHTS*

**JFC & Associates is creating end-to-end solutions** to business problems through connections to the IoT and other corporate systems. For over 20-years, we have helped world-class organizations add and manage new technologies to accelerate their businesses and increase ROI.

Through our partnership in providing innovative EAM solutions, JFC's customers are discovering smarter ways of doing things and solving problems in unconventional ways.

Is your facility in need of improved attendance record keeping and time tracking? JFC provides time clock solutions and proximity readers that can integrate to your EAM and Payroll systems. These advances help create more accurate data for analysis and compliance.

*WHAT JFC DELIVERS*

- > Improved data quality
